

Course Title	Court Workshop	Duration	One Day	Investigation & Enforcement
Aim	Does your job involve giving evidence? Maybe you've listened to a trial without being involved and now you want to know more ; maybe you're an occasional or first-time witness who wants to know what to expect and how to behave in court ; perhaps you've got some experience and want to be sure that, when you're giving evidence as a professional witness, you'll appear confident, competent and reliable... If you want to seriously improve your skills as a witness, this is the course you're looking for. Focusing on <i>evidence in chief</i> and <i>cross-examination</i>, you'll discuss and then practice everything you need to know so that you can be a witness the prosecution can rely on. See the tricks defence might pull, the things they can say and do to try and wrong foot you, and learn advanced techniques to counteract this. Then practice these things in a court scenario until you're confident that, far from appearing shaky, you'll sound and perform to the best of your ability.
